

# Technical Data Sheet

L045/020906/C

<b>Product Name</b>	<b>Type</b>
<b>SAK-LCZ5033</b>	<b>Liquid metal soap stabiliser</b>

## Typical Specification

---

- Appearance : Yellowish liquid
- Refractive Index (25°C) : 1.467

## General Information

---

- Product Packaging : 200kg net weight in standard steel drum
- Storage and Handling : Full information on the handling of this product is available upon request

## Product Application

---

- SAK-LCZ5033 is a non-toxic metal soap stabiliser which is free of phenol.
- SAK-LCZ5033 is used to stabilise flexible PVC and plastisols. It provides good early colour retention and promotes good mould release of articles.
- The addition of an epoxy compound (such as 2 – 5phr ESBO) improves the long term heat stability.
- Dosage : 2 – 6phr is recommended depending on the formulation and machine operating conditions.
